Student Information System

The key to success is through communication

Technology helping parents . . .

Family Access allows communication between home and school. Parents login to Skyward with a secure password and check their child's grades, missing assignments and food service account balances. Parents can communicate with school 24/7 !

Technology helping students . . .

Student Access allows students to login to their Skyward account to check grades and missing assignments.

Technology helping teachers . . .

With the help of our online student information system, teachers are able to enter grades in real time. Parents are then able to see immediate results, therefore increasing communication.

Skylert

Skylert is the communication tool we use to quickly send mass notifications to employees, parents, and students in the case of an emergency.

Parents may choose between text, email, and phone for notifications.

Preparing our students "today" for their

Using technology to Teach
21st Century Skills

Technology Literacy

is much more than having basic technology skills. It is using technology as a tool to learn core subjects and prepare our students for success in the 21st century.

Halstead High School

3 Computer Labs
1 Computer Lab for Chemistry
1 Mobile Lab in English Department
